It is with great enthusiasm that I write this letter for Jennifer Weggeman!

I have worked...no, I correct that. I have partnered with Jennifer on a number of occasions. I say partnered as opposed to work because anyone who has dealt with Jennifer in a working relationship knows Jennifer does the lion's share of the work.

Jennifer has a calm manner that belies the intense work ethic she possesses. You mention a concern to Jennifer one day and by the next day she has called or emailed you with a few suggestions and some people to call. And trust me, Jennifer knows people to call. Jennifer has a wide network that spans many industries. You mention a need and Jennifer can match a person with a solution to the problem. It is uncanny.

Perhaps, the two greatest strengths Jennifer possesses are her empathic skills and her listening skills. When you have a conversation with Jennifer, she asks you questions and makes comments so that you know she is with you. She stays focused on your needs and follows up in short order.

Jennifer can talk to a crowd or one- on- one with the same strong communication skills. Her people skills are honed to perfection. Jennifer has a way of educating that is never intrusive. She is passionate about her life and helping others. She has been asked to be on many Boards (ours included) because she is creative and rolls her sleeves up and gets working.

Jennifer is never in your face but you know she always has your back. It is a delight to work with Jennifer.

If you have any questions or specific ideas you would like to run by me, please don't hesitate to ask. My number at work is 630 968 1880 x13

Thank you!

A handwritten signature in cursive script that reads "Joy Maguire-Dooley".
